One Day Industrial Visit at Jargo Dam Chunar, Mirzapur, Uttar Pradesh India

I would like to inform you that the Department of Civil Engineering has completed an Industrial visit dated 20/03/2024 at "Jargo Dam Chunar, Mirzapur Uttar Pradesh" India. The Jargo Dam is 18 km from Chunar and 50 km from Mirzapur.

Jargo Dam is a remarkable feat of engineering which serves as a vital water resource, infrastructure, catchment area, and various types of ecological systems that is why it has drawn the interest of numerous professionals and civil engineering students. This visit helped the students with a hands-on learning experience. It aimed to supplement theoretical knowledge with practical insights into the design, construction, and maintenance of dam and dam-supporting structure structures like barrages, spillways, silt injectors, diversion canal systems, etc. This visit will also help the students to increase their academic performance and generate interest of students in structural engineering. During the visit, the students were provided with detailed explanations of the dam's structure and its various components. They learned about the intricate network of spillways, and gates. The flow of water from the Jargo dam to the canal network will illustrate the principles of fluid mechanics and hydraulics governing the flow of water through the dam. Through this visit, students gained a practical understanding of concepts such as flow velocity, pressure distribution, and hydraulic jumps.

This visit also included discussions on the environmental impact of dam construction and its operation. Students learned about the importance of environmental assessments in mitigating potential ecological disruptions and ensuring sustainable development practices.

The visit of Jargo Dam gives a transformative learning experience for civil engineering students by combining theoretical knowledge with practical exposure. It enriched their understanding of complex engineering concepts and instilled a deeper appreciation for the challenges and opportunities in infrastructure development.

Mr. Mohit Pathak

A Report on One Day Industrial Visit to UPRVUNL OBRA Uttar Pradesh

The Department of Electrical & Electronics Engineering organized a one-day industrial visit to **Uttar Pradesh Rajya Vidyut Utpadan Nigam Limited (UPRVUNL)** on **January 11, 2023**. The visit aimed to provide students with a practical exposure to the functioning of a prominent power generation company and to enhance their understanding of the electrical and electronics aspects of power plants and to bridge the gap between theoretical knowledge gained in classrooms and practical implementation in an industrial setting.

A brief history of the visit is as follows;

The visit is started early morning at 07:00 am from college Campus and reached at UPRVUNL by 12:00 Noon. After arrival at UPRVUNL, students were welcomed by UPRVUNL officials. In inaugural session, UPRVUNL experts delivered technical presentations on various aspects of power generation, focusing on the role of electrical and electronics engineering. Topics covered included power plant automation, control systems, electrical distribution, and the integration of renewable energy sources.

After the technical presentation, students were divided into groups and taken on a guided tour of the UPRVUNL power generation units. Throughout the visit, students had the opportunity to engage in interactive sessions with UPRVUNL engineers and professionals. Discussions covered challenges faced in power generation, advancements in technology, and career opportunities in the electrical and electronics engineering domain. A question-and-answer session allowed students to seek clarification on technical aspects and gain insights into the industry from experienced professionals.

At last, the organizing team expresses gratitude to UPRVUNL officials for their hospitality and cooperation in facilitating a valuable learning experience for the students and special thanks to Vice Chairman Shri Vipul Jain Sir, Director Gaurav Sinha Sir, Deputy Director Dr. A Y Yadav Sir and Dean Academic Dr. D M Srivastava Sir, for allowing and providing such a wonderful opportunity to the students. Such industrial visits play a pivotal role in shaping the future engineers and professionals, fostering a strong connection between academia and industry.

Mr. Pappu Kumar

Department of Business Administration INDUSTRIAL VISIT REPORT

Place of visit: Banaras Beads Limited

Date: 10 & 11 October, 2023

Total Students: 48 from MBA I Sem & 34 from MBA III Sem

Students of MBA I Sem and III Sem, with the faculties from the Management Department visited Banaras Beads Limited, Varanasi on October 10 & 11, 2023.

This visit was mainly focused on understanding the procedures involved in the manufacturing process, the technology and the types of equipment used. Students were split into two groups.

Mr. Mohit Gupta, the Production Manager there explained about the facilities available inside the unit, and the equipment used for the extraction of certain materials. He also explained about the maintenance of the equipment and ethics considered storage and disposal.

After the tour, a presentation was arranged about the code of conduct and HR Policy by HR & Admin Department.

OUTCOME OF THE VISIT:

- The technology and the equipment used in production
- Understanding of the various processes involved in collection, separation, & storage
- Application of Industry 4.0

Overall visit helped us understand the latest manufacturing process, as well as the export-import process. A group of 82 students along with two faculty members visited the smart factory.
