

# Language and Communication Skills

Kashi Institute of Technology First Grade College strives for the overall development of students. It not only gives its importance to the academic progress but also provides platform by conducting various activities through the academic year. The student participants show their hidden talent and creativity through the performance.

English club activity conducts role play, group discussion, youth parliament, debate, story writing and pick and speaks competitions..

Today's Engineers defy challenges of being ambitious as well as cross-disciplinary. A considerable magnitude to be successful in life depends on effective communication skill. Communicative English language skills are built so that an individual is ready to face the competitive job market and self-confidence in a person. Any aspiring individual may master the key elements of communication by being clear, precise and delivering effective communication to best of their capability. There are four language and communication skills: **listening, speaking, reading, and writing**. These four skills of language allow an individual to comprehend and produce spoken language for proper and effective interpersonal communication.

Language and communication skills can help the student in being independent, delivering of the information to the in charges/ administration, adjusting in diverse environment, smooth and efficient working, team lead, public relations, satisfaction at work, etc. The course is planned accordingly to boost the morale and bring confidence in students, by engaging them in various events/activities with an add-on of laboratory sessions.
